LEADERSHIP COACHING TRAIN-the-TRAINER WORKSHOP

Teaching Supervisors to be Safety Coaches

HIGH-IMPACT ACCIDENT REDUCTION

Supervisors are in a position to influence worker safety either for good or otherwise. Most supervisors don't have the latest training and tools for coaching workers to perform their jobs safely. This training leverages a supervisors' position and influence to make significant gains in accident reductions.

WORKSHOP DESCRIPTION

This seminar will teach your trainer how to teach supervisors to become effective safety coaches. Your supervisors will learn how to focus workers on the most effective accident-prevention strategies, discover and manage influences on workplace behaviors, measure the progress of cultural changes, and coach and counsel effectively to address safety-related behavioral issues with workers. The use of these skills will greatly improve safety, but more importantly, make supervisors more effective in all their dealings with workers and with each other.

LEARNING OBJECTIVES

- ☞ Better understand and appreciate worker actions through behavioral analysis
- ☞ Identify the factors that influence workplace decisions and learn how to change them
- ☞ Differentiate between policing and coaching opportunities in safety
- ☞ Clearly distinguish work behaviors with low probability risks
- ☞ Focus employees on behavioral precautions that are highly effective and within their power to control
- ☞ Choose the best form of feedback to shape behaviors
- ☞ Motivate employees to encourage superior performance through positive feedback
- ☞ Coach employees effectively to change unsafe or at-risk behaviors
- ☞ Align leadership coaching with progressive discipline when needed
- ☞ Synergize leadership coaching with employee-driven processes without conflict or redundancy
- ☞ How to evaluate the training effectiveness
- ☞ Measure improvement and progress

Who Should Attend?

Managers, Supervisors,
Safety Leaders, Coordinators,
and Trainers

Attendance is limited. This allows for an intimate setting and the ability to move through advanced topics at a fast pace.

Investment

Two-day seminar \$1,595

*Includes one (1) site license for materials usage.

CM/COC Points

Each seminar qualifies for CM points through the ABIH (American Board of Industrial Hygiene) or COC points through BCSP (Board of Certified Safety Professionals).

Upcoming Dates/ Locations

August 18-19, 2010
Newark, NJ
