ProAct Safety CEO to Lead Professional Development Workshop and Technical Session at NSC Spring Congress

Shawn Galloway will present at the 2024 National Safety Council event in May at the Donald E Stephens Convention Center in Rosemont, IL.

(Houston, TX – April 24, 2024) ProAct Safety, a recognized pioneer of leadership and safety excellence strategies, announced the company's CEO, Shawn M. Galloway, will lead two sessions at the [NSC Spring Congress](#). The conference will take place on May 14-16 near Chicago O'Hare airport.

10 New Trends That Keep Me Up at Night (16 May 10:15am-11am)

Workplaces have changed since 2020, making previous safety strategies obsolete. We must change our approach to meet these new realities; otherwise, we can expect broader organizational challenges in the days ahead. Ten new trends are significantly impacting overall performance and culture in most industries – and a new strategy is needed. When we're surprised by undesirable results, we're often either blind to the indicators or aren't giving them the attention they deserve. Undesirable safety performance is often a symptom of larger issues in the broader workplace and organizational culture. When this becomes the new reality, it's no longer a safety problem – it's an organizational problem, requiring operational leadership to get involved and develop a new strategy broader than a safety improvement plan. During this session, we'll explore how to identify these trends in your workplace and what to do about them before tragedy occurs.

Building Your Bridge – From Compliance to Excellence (16 May 1pm-5pm)

When talking about moving from a "have to" to a "want to" culture, from compliance to culture, or from good to great, the conversation is much more productive when visual models are used to allow leaders to identify precisely where they are, where they're trying to go, and what to focus on to get there. Since 2008, the Bridge to Safety Excellence model has been a visual representation that thousands of organizations have leveraged to convey the precise elements to be addressed to close the gap between compliance and culture, and to discover where they are on the path to sustainable excellence. In this session, you'll explore where you and your organization are within this model and learn how to address each component – step by step.
