ProAct Safety Announces Offering of New Leader Mentoring and Coaching Programs

Offered by globally recognized experts, the programs are designed to help leaders find focus, and create and execute against custom strategy.

(The Woodlands, TX – May 21, 2019) ProAct Safety, a recognized pioneer of leadership and safety excellence strategies, announced its response to the magnitude of requests for private mentoring by creating three tiered offerings for personal development.

The introductory program, Finding Focus, gives leaders direct access to experts at ProAct Safety during a six-month timeframe to develop and improve their effectiveness in their role and influence as a leader. The guided program, Execution & Accountability, is where highest priority development areas are crafted a detailed road map with specific dates of completion. Additional resources are provided to supplement the knowledge growth for this intense collaboration. The advanced program, Goals and Strategy, is an in-person engagement that focuses considerable time on personal and company goals and strategy development. It includes enrollment in the guided program.

Galloway adds, “Over the past 25 years, we have found that even leaders without an immediate need for a structured project or consulting support for a specific scope of work may occasionally want expert advice and to know that a trusted advisor is available quickly if needed.”
