ProAct Safety CEO to Host Webinar on How Dissenting Views Lead to Better Safety Decisions

Based on Shawn Galloway's Professional Safety article, learn why the best safety decisions aren't made through agreement – they're shaped by constructive dissent.

(Houston, TX – July 29, 2026) ProAct Safety, a recognized pioneer of safety excellence and leadership strategies, announced that CEO Shawn M. Galloway will present the webinar “[Shape Better Safety Decisions with Dissenting Views](#),” on Thursday, August 27 at 1:00 p.m. CT. The 60-minute live webinar, including live Q&A, is complimentary but requires advance registration.

As organizations face increasingly complex operational and safety decisions, leaders are recognizing that encouraging thoughtful dissent can help uncover hidden risks, challenge assumptions, and improve outcomes before critical decision are made. “A decision is stronger and more well-rounded when all perspectives have been considered,” Galloway writes in the article that inspired the webinar.

During the event, he will demonstrate how leaders can make stronger, more resilient decisions by intentionally seeking dissenting viewpoints. Participants will explore historical examples, review major incidents where critical concerns failed to reach decision-makers, and learn how organizations have strengthened decision-making by encouraging constructive disagreement. Attendees will leave with practical techniques they can immediately apply, including a five-question decision framework for high-consequence leadership discussions.

Safety professionals, operational leaders, executives, and board members are encouraged to attend at no cost. Registration is now open at <https://proactsafety.com/solutions/workshops/shape-better-safety-decisions-with-dissenting-views>.

ABOUT SHAWN M. GALLOWAY

Shawn M. Galloway, CEO of ProAct Safety, advises global enterprises on building the system capacity to prevent harm, recover from disruption, and make safety a driver of business value.
