ProAct Safety CEO to Lead Professional Development Workshop and Technical Session at NSC Congress in New Orleans

Shawn Galloway will present at the 2023 National Safety Council Congress, the world's largest annual event for safety, health and environmental professionals.

(Houston, TX – October 20, 2023) ProAct Safety, a recognized pioneer of leadership and safety excellence strategies, announced the company's CEO, Shawn M. Galloway, will lead two sessions at the [NSC Congress and Expo](#). The conference will take place on September 20-26 at the Ernest N Morial Convention Center in New Orleans, LA.

Building Your Bridge – From Compliance to Excellence (22 Oct 9am-4:30pm)

When talking about moving from a “have to” to a “want to” culture, from compliance to culture, or from good to great, the conversation is much more productive when visual models are used to allow leaders to identify precisely where they are, where they're trying to go, and what to focus on to get there. Since 2008, the Bridge to Safety Excellence model has been a visual representation that thousands of organizations have leveraged to convey the precise elements to be addressed to close the gap between compliance and culture, and to discover where they are on the path to sustainable excellence. In this session, you'll explore where you and your organization are within this model and learn how to address each component – step by step.

A Tactical Framework to Address Risk Perceptions and Risky Practices (24 Oct 2:30-3:30pm)

How well are you onboarding new employees to stated expectations and the practices that perhaps are taken for granted? When safety practices become cultural (“the way we do things around here”), sometimes they're forgotten about during educating and training of new employees. Leveraging the Plan, Do, Check Act (PDCA) methodology, this session provides a process proven to help organizations that are facing new employee training and onboarding challenges.
